Junk Needed For War — In the barnyards and gullies of farms and in the basements and attics of homes is a lot of junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis. It may be rusty old scrap to you but it is actually refined steel. The rubber situation is also critical. Inspite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.
